

Dear 2020 (and 2019) Feeder League Teams:

As you all know, all too well, 2020 has been a challenging year to put it mildly. In order to try and keep the 2020 season as convenient as possible, KAA has tried its best to keep the Feeder League at KAA this season. Unfortunately, the Covid-19 virus has other plans.

STLCO on Monday August 10th moved youth sports into phase II. For softball that means no games at all and no practices with more than 20 players plus 2 coaches. The EARLIEST we anticipate getting to Phase IV, which is what we need to play tourneys is now September 28th, if then. Unfortunately that makes a league at KAA impractical.

As St. Charles County is not under any restrictions at the present time, we have negotiated with New Melle and they have graciously agreed to take ALL KAA teams!

If you have already registered with KAA, but not paid, your registration will be transferred to New Melle and you will make your payment to them ASAP. If your team has registered AND paid all or part of your fees already to KAA, your registration AND your league fees will be transferred to New Melle by the 14th.

As such, New Melle will be responsible for scheduling games and running the league this year. We apologize to the teams for which playing in New Melle is more "logistically challenging", but given the limited locations and the size of the league, New Melle was by far the best option.

Your contact at New Melle is John Blondin. His email is John@newmellesportsandrec.com. We encourage your teams to reach out to him ASAP to secure a spot in their league for 2020.

Again, we apologize for the late venue change, we tried our best to make 2020 as near to "normal" as we could, unfortunately 2020 had other ideas. Good luck in 2020 and we'll see you back at the park in 2021!

KAA Board of Directors
